Robert,

Many thanks for the report and touching base.

I am happy to work with you, Mike, John and Steve to coordinate the meeting. Perhaps the five of us can jump on a quick call to coordinate the approach.

I do know there some factual inaccuracies in the report, such as the river adjacent to the site is the Flathead River. Steve Wright has made several notations about that and can review them on the call.

Let me know what you think.

Mary

Hi Mary,

It has been a while since we touched base. I hope you are doing well.

Please find attached a copy of the draft community involvement plan for the CFAC site. I am going to send this out to the community in a site update later this week but wanted to give you a courtesy advanced look. Please let me know if you have questions or recommendations. This is only an initial draft and we can make changes based on public feedback.

I will try to reach you by phone soon to touch base. Mike and I would like to coordinate a public engagement to follow up on the initial sample data and summary report. Perhaps late April.

Thanks Mary!
